

AMERICANISM. The jurisdiction of the other. The state should not dictate forms of worship or articles of faith for the church, and the church has no business to seek to become a political power. In some quarters religious schools are contending for support out of the school fund. The idea is wholly un-American. Let the people forever say no to such a union of church and state.

NO CHAIRS IN SALOONS. Action in Danville that May Cut Off the City Revenues.

DANVILLE, Ill., April 23.—The city council has passed an ordinance requiring all tables, screens, chairs to be removed from the saloons and allowing only one chair for the use of the proprietor or bartender. Saloon-keepers are considerably exercised over the ordinance and if it is signed by the mayor will fight it in the courts or refuse to take out a license. As the present revenues of the city without the income from licenses are only sufficient to pay for lighting the city and water rental, the latter action would cause the discharge of the police and fire departments.

Will be a Great Meet. The 12th annual meet of the Illinois Division, L. A. W., will be held at Galesburg, Ill., June 19, 20 and 21, under the auspices of the Galesburg Cycle club. It is the intention of the management to make this the most successful meeting yet held in the state, and with that idea in view it has been decided to give prizes to the value of \$2,500, divided as follows: Wednesday, June 19, eight events, \$600 in prizes; Thursday, June 20, ten events, \$1,900 prizes; Friday, June 21, \$900 prizes. The racing will take place at C. W. Williams' noted race track where little Alex last fall made the world's time record. Mr. Williams at this time states that, weather permitting, he will have a track that cannot be excelled for racing. Any wheelman, whether a member of the L. A. W. or not, is eligible to enter any of the events except the championship races and such other events as are open only to certain classes. A uniform charge of 25 cents will be made for each event entered. Entry blanks and further information relative to the races can be had by applying to any of the executive committee. All railroads in Illinois will make a fare of one and one-third for this meeting. In addition to this the Chicago, Burlington and Quincy Railroad company will run special trains from all points in Illinois at a very low rate. Information as to trains, rates, etc., will be furnished through newspapers at a later date.

Now Vandalia Cars. In the shops of the Vandalia at Terre Haute three passenger cars are in course of construction under the personal supervision of Master Car Builder W. R. McKee, Jr. Next week the first of the three, a fine new postal car for the main line, will be turned out. It is the most complete mail car turned out of the shops in years. The master car builder has a piece of work about ready for the road that will insure him a lead pipe cinch on the hearts of the paymaster and his assistants. It is the new pay car and when finished a finer one will be hard to find. The business office is strictly up to date and in addition to the regular berth a fine folding bed has been put in for the paymaster and his clerk. The dining room and kitchen are larger than in the general run of pay cars and when the interior decorations have all been finished it will be—well, the "hottest" thing on the road. The third car under construction is a fine, new combination coach for the Lake Special which goes on about June 10th. Mr. McKee expects to break all records in the finishing of this car.

The New Album. Through the courtesy of Messrs. Scanlan & Hansen a REPUBLICAN reporter was shown through the factory of the Revolving Album company this morning. The little device is handsomely finished in oak and with its pedestal presents a very attractive appearance. The proprietors are getting out designs in plush and metal, which will be very taking. The album itself is a model of simplicity and beauty, and must become very popular with the trade. Orders are already coming in, although the factory is not yet prepared to put its goods on the market. Several different sizes will be made to accommodate all classes of customers.

Declared to be Insane. In the county court today Philip Miller was adjudged insane. The jury-men were Jacob Latham, Al. Diehl, William Bailey, Dr. O. R. Allen, Thomas Richardson and Samuel Stabler. The cause for the malady was assigned to overwork, loss of sleep and poor health. Miller is 40 years of age, and is single. The death of his father was caused by paralysis. Miller will be taken to the Kankakee asylum for treatment.

CYCLONE IN DENVER.

The First that City Has Ever Experienced.

NARROW ESCAPE OF THE BARNETTS

Whose House was Blown Down About Their Heads and Reduced to Kindling Wood—Other Houses Demolished—Deluged with Rain.

OMAHA, Neb., April 30.—The first cyclone that ever visited Omaha occurred just south of Druid Hill addition, in the northwestern part of the city, at 4 o'clock yesterday morning. It accompanied the atmospheric disturbance that preceded the heavy rain of the early morning, and although its effect was confined to a small territory, nothing was left standing in its path. A house and two barns were entirely demolished, and the roof was lifted from another cottage and carried several blocks. That no fatalities accompanied the catastrophe is considered a miracle.

A frame dwelling was occupied by D. W. Barnett with his wife and three children. Mr. Barnett was awakened by the wind. He got up and went to the front of the house to close the windows. While returning through the sitting room, the whole structure was picked from its foundation without an instant's warning. The house fronted on Thirty-fifth street and the wind turned it completely over toward the south. Mrs. Barnett and the children were sleeping in the north portion of the house, but as the structure turned over they were thrown clear across the rooms against the south wall. They had scarcely time to realize what had occurred when the walls collapsed and the roof came tumbling on their heads. In some manner they were protected from the falling timbers and succeeded in extricating themselves. Mr. Barnett was severely bruised about the legs, and Mrs. Barnett was cut on the arms, but the children did not receive a scratch.

While they were trying to pull themselves out of the debris the wind continued its work. The timbers were shattered into kindling wood and scattered all over several vacant lots. One side of the house was dropped about fifty feet away and the floor was blown loose and carried further down the hill.

Members of the family were taken in by neighbors until morning. Other cottages were unroofed; one man was knocked senseless by a flying timber and a barn was completely demolished. Immediately afterwards there came a very heavy rain, falling in torrents.

A FIERCE FIGHT

Between Union Ore Trimmers and Deputy Sheriffs and Nonunion Men.

MARQUETTE, Mich., April 30.—A riot occurred here last evening between union and nonunion ore trimmers upon the arrival of the steamer Pontiac, which was the first arrival of ore cargoes since the opening of navigation. Trouble had been brewing for some time.

As soon as the boat tied up to the dock Sheriff Broad and a small force of deputies escorted a crew of imported workmen to trim the vessel. They were fiercely attacked by the union men, armed with picks, shovels and baseball clubs. The deputies were easily overpowered and, after a short but sharp conflict, the nonunion forces were put to flight. Many of them had broken heads.

The police succeeded in making one arrest, but as they have names of all the leaders, they will arrest them at the first opportunity.

The sheriff called on the local militia for aid, but before the soldiers could be assembled the trouble was over and the union trimmers had possession of the dock. A renewal of last night's scrimmage is probable to-morrow morning when the next boat arrives for ore.

The Militia Ordered Out. Houghton, Mich., April 30.—Two companies of the fifth regiment left at midnight for Marquette to keep peace on the ore docks. The civil authorities are powerless to protect the imported men brought to fill the regular ore trimmer's places.

A NOVICE in the kitchen might prefer some other baking powder to Dr. Price's. An experienced housekeeper never would.

A Demoted Man on His Travels.

MATSVILLE, Ky., April 30.—A man giving the name of Norton E. Murray, claiming to be from Harpersburg, Va., and evidently deranged, boarded an east-bound Chesapeake & Ohio train at Cincinnati, buying a ticket to Huntington. He excited the suspicion of the trainmen by trying to get off the train at every station, but was prevented until this city was reached, when just as the train was leaving he jumped off the rear end of the train and ran toward the river going over a stone wall ten feet high, but fortunately escaping injury. He was arrested and placed in jail for safe keeping and his relatives were notified.

J. D. MOULT is boring a deep well on the farm of Mrs. Evans, east of Delavan. The new passenger station of the Big Four at Danville will be begun at once.

WHO WROTE TRILBY?

A Question Upon Which Hangs a Far-reaching Legal Decision.

DENVER, April 30.—"Did De Mauries write Trilby?" This sensational question was yesterday propounded in the United States court in good faith, when the suit of Harper Bros. and A. M. Palmer for an injunction against the Lyceum Stock Co. to restrain them from producing "Trilby" at their theater was called. The defendants allege that the book entitled "Trilby" was not originated, invented or written by De Mauries. They assert that the original title and book of "Trilby" was first published in France in 1820 and afterward translated and published in English in 1847, and that the title and book has been common property for seventy-five years.

The attorneys for the plaintiff asked for time to communicate with clients in New York as to the course they should pursue, and the court postponed the hearing until to-morrow morning. Should the allegations of the Lyceum company be true, a sensation will be caused all over the two continents. This is the first public intimation of an attack on the authenticity of the work, and if it is successful every company in the world will have as much right to play Trilby as the exclusive New York organization.

Representative Hitt Better.

WASHINGTON, April 29.—Representative Hitt is reported to be a trifle better this afternoon and a considerable improvement in his condition is apparent over that of last night.

A HOUSEHOLD treasure and a house hold pleasure—Dr. Price's Baking Powder and the food prepared with it.

A WOULD-BE BANK ROBBER

Shot and Seriously Injured by the Paying Teller.

DUBUQUE, Ia., April 30.—Paying Teller Maurice Brown of the Iowa Trust and Savings bank, shot and seriously wounded Leonard Lees in the bank yesterday morning, after Lees had made an attempt to rob the institution of the day's funds. The robber broke the glass frame at the teller's window with the intention of grabbing the money piled inside, but the teller was too quick for him. Grasping a revolver from his desk, he shot, supposing, he says, the robber intended to shoot. Lees is related to families living here, and has been a resident of Dubuque for the most of his life. He will recover.

COLIMA IN ERUPTION.

Mexico Visited by Both Volcano and Earthquake.

CITY OF MEXICO, April 30.—The volcano of Colima was in eruption last Friday and Saturday, but its activity has almost ceased in the last two days. The eruption was slight and did no damage.

Guadalupe, capital of Jalisco province, was shaken on Saturday by an earthquake lasting two or three seconds. The earthquake is supposed to have been due to the same cause as the volcano's activity.

B. H. BOWMAN, Pub. *Esquire*, of Bremen, Ind., writes: "Last week our little girl baby, the only one we have, was taken sick with croup. After two doctors failed to give relief and life was hanging on a thread, we tried One Minute Cough Cure, and its life was saved." Battles & Eichinger.

LA GRIPPE is here again, with all of its old-time vigor. One Minute Cough Cure is a reliable remedy. It cures and cures quickly. Battles & Eichinger.

USE WHITE LOAF FLOUR.

HER ENTRANCE

—into society, and womanhood as well, is an extremely critical period in every girl's life. At this time she needs advice, and what's more—help of the right sort. If she puts her faith in Dr. Pierce's Favorite Prescription it can bring only good results. It's a medicine that's made especially to build up women's strength and cure women's ailments—an invigorating, restorative tonic, soothing cordial, and bracing nerve; purely vegetable, non-alcoholic, and perfectly harmless. For all the functional derangements, painful disorders, and chronic weaknesses that afflict womanhood, the "Favorite Prescription" is specific.

TERRIBLE PAIN AND FARTING SPELLS.

Dr. B. V. French, Buffalo, N. Y., writes: "When I commenced taking your medicine I was very sick. I had terrible pain in my head, and life was a burden to me. I was attended by one of the best physicians in our town, but with no good results. At last I tried Dr. Pierce's Favorite Prescription, which I did not expect to benefit me. I took one bottle and I felt greatly relieved. I could advise all ladies similarly afflicted to try 'Favorite Prescription.'"

Yours truly, Mrs. JACOB.

Mrs. SAMUELA JACOB.

A book of 168 pages, entitled "Woman and Her Diseases," sent sealed in plain envelope for 10 cents in stamps to pay postage. Address Dr. Pierce as above.

Address THE EVENING REPUBLICAN, 125
South Water street, Decatur, Illinois.

TUESDAY, APRIL 30, 1895.

Wanted to Bet.
A gentleman for whom the REPUBLICAN has the highest respect as a citizen, yesterday, called up the editor by phone and insisted upon betting that the silver dollar was the unit of value up to 1872, and was so fixed in the act of 1792 providing for a mint and the regulation of coinage. In some cases "money talks," but in this case the act and facts of history should be permitted to do the talking. The second section of that act (1792) fixing the ratio between gold and silver is as follows:

The proportionate value of gold to silver in all coins which shall by law be current as money within the United States shall be 15 to 1, according to quantity in weight of pure gold or pure silver; that is to say, every 15 parts of weight of pure silver shall be of equal value in all payments with 1 pound weight of pure gold.

That part of the act of 1792 regulating coinage and fixing the denominations and the unit is as follows:

That there shall be from time to time struck and coined at said mints coins of gold, silver and copper of the following denominations, values and descriptions, namely: Eagles, each to be of the value of \$10 or units and to contain 247 grains and four-eighths of a grain of pure, or 270 grains of standard gold. Half eagles, each of the value of \$5 and to contain 123 grains and six-eighths of a grain of pure, or 135 grains of standard gold. Quarter eagles, each to be of the value of \$2.50. Dollars, or units, each to be of the value of a Spanish milled dollar, as the same is now current, and to contain 371 grains and four sixteenth parts of a grain of pure or 416 grains of standard silver.

Section two of the act clearly states that "15 pounds weight of pure silver shall be of equal value in all payments with 1 pound of weight of pure gold." If the silver dollar by that act was made the unit of value, is there any man who can successfully contend that the foregoing language would have been used in relation to the ratio? The act of 1792 simply provides that the "dollar" shall be the unit, (that is the unit of account, but not the unit of value), instead of the pound sterling or the fractional part of a dollar, as Robert Morris proposed. The act was in accordance with the wishes of Thomas Jefferson and Alexander Hamilton. Jefferson favored the gold and silver decimal coinage, as we have it, and also very clearly stated that,

The proportion between the value of gold and silver is a mercantile problem altogether. (This was always true and is true today.)
Hamilton at the same time stated in a report to congress as follows:
A preference should not be accorded to either of the metals for the money unit. Of the two, if a preference prevailed gold should be the choice.
Then if any further evidence is needed to explode the sophism that the silver dollar was made the unit of value it may be found in the fact that when Jefferson became president he suspended the coinage of silver dollars which he most certainly could and would not have done had the silver dollar been the unit of value as claimed by our modern free silverites.

Even rock-ribbed Democrats had to smile when the official announcement was made that the treasury department would no longer collect and disseminate statistics relating to the manufacture of tin and terne plate in the United States. The reason was plain. Every publication of figures showing the increase of this industry, which was one of those established by the McKinley tariff law, was officially giving the lie to every Democratic editor and stump speaker who took part in the last presidential campaign, all of whom had declared in the most positive terms that there was no such thing as the manufacture of tin and terne plates for commercial purposes in the United States, and predicted that three months after the election it would be impossible to find an American tin plate factory at work. But the makers of the McKinley law knew what they were about. They gave the manufacture of tin and terne plate such a firm footing in the United States that it has continued to grow, although its growth has been slow since the enactment of the Democratic tariff. Had the Republican party continued in power there would to-day have been no need to import a pound of tin or terne plate.

If we were to adopt free coinage of silver at the ratio of 16 to 1 and that process did not at once advance the value of the silver dollar to a par with gold, gold would at once be retired. This would mean the retirement of our \$500,000,000 of gold currency, and our circulating medium would be lessened by that amount without power to replace it. The best the government, with its present facilities can do, is to coin 35,000,000 silver dollars a year. To compensate the loss of the five hundred millions of gold would require over present mints. Of course new mints could be

built, but it requires time to build them, and to coin all the silver which would be presented under free coinage would require at least four times the minting capacity we now have.

The sophisms in regard to free trade turned the heads of enough people in 1892 to give the administration to the people who advocated a low tariff. The result has not been satisfactory. It has been the opposite of what was promised, and in 1894 the voters of the country went by an overwhelming majority against the party that deceived them. That same party is now trying to recoup itself and retain its power by advocating free silver. It remains to be seen whether the people can again be deceived by sophistries as they were in 1892. It will strike the average citizen that it would be better to recover from the blunder of 1892 before committing another one and adding it to that of 1892.

JUDGE OSCAR P. BONNEY, one of the stalwart Democrats in Illinois, thinks the free coinage movement is fraught with great danger. In a recent interview he said:

"The silver movement is a more serious thing than most people imagine, and it will, if not stopped, lead to bloodshed. It would upset all values and bring such industrial distress as we have never seen. Then look out for trouble, and with cheap money and no work men will fight for bread for their families. The newspapers, instead of abusing the silver men, ought to go in to educate the people to see the danger of that policy."

In Boston the ordinances provide there shall be no drinking at a bar. To drink in a saloon in that city the thirsty citizen is required to be seated at a table. In Danville the ordinances provide there shall be neither chairs nor tables in a saloon, and no blinds on the windows or screens at the bar. Both plans are in the interest of reform, and in each city the person who opposes the plan is characterized as being opposed to reform.

Deafness Cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. Cheney & Co., Toledo, Ohio. Sold by druggists, 75c.

He Couldn't Drive Nails.
Jonas Swartz, Hartsville, Ohio, relates an experience all the more wonderful because he is now nearly seventy. He says: "I wouldn't take \$100 for the good Dr. Wheeler's Nerve Vitalizer has done me. I always worked hard and was care-
less about a little stomach trouble. I had and sleeplessness which I attributed to the nervous trouble which I thought struck me about four years ago. Limbs of my right side got so I couldn't control them; at times I couldn't hold a cup in my right hand to drink from it, and in a crowd would unconsciously hit people with my jerking right arm. The doctors called it nervous paralysis and said that, at my age, I couldn't be cured. I saw Dr. Wheeler's Nerve Vitalizer, and carried in the Repository and got a sample bottle of it, which I thought helped me, so bought a bottle. Think I have used three bottles, and they have made a steady man of me. I have not felt as well in the four years and am still improving. Why, for two years I couldn't drive a nail." Mr. Geidinger, in whose store the interview took place, fully corroborated Mr. Swartz's statement, saying his cure was a surprise to all who knew of the case. We are authorized to say, this medicine for control and cure of all nerve troubles, is sold by Battles & Eichinger, Druggists.

SIR ROBERT HAMILTON, ex-Secretary of Ireland, and ex-Governor of Tasmania, died in London.

Ballard's Snow Liniment.
This invaluable remedy is one that ought to be in every household. It will cure your Rheumatism, Neuralgia, Sprains, Cuts, Bruises, Burns, Frosted Feet and Ears, Sore throat and Sore Chest. If you have Lame Back or will cure it. It penetrates to the seat of the disease. It will cure Stiff Joints and contracted muscles after all other remedies have failed. Those who have been crippled for years have used Ballard's Snow Liniment and thrown away their crutches and been able to walk as well as ever. It will cure you. Price 50 cents. Sold at Battles & Eichinger's drug store.

RIVER DRIFFERS has overflowed its banks and flooded much ground and many were drowned.

J. A. RICHARDSON, of Jefferson City, Mo., Chief Enrolling Force, 38th General Assembly of Missouri, writes: "I wish to testify to the merits of One Minute Cough Cure. When other so-called cures failed, I obtained almost instant relief and a speedy cure by the use of One Minute Cough Cure. Battles & Eichinger."

The stockholders of the Central Ohio Railroad have re-elected the old officers for the ensuing year.

Doctor H. R. FISH, of Gravois City, Mo., a practicing physician of many years' experience, writes: "Dr. Witt's Witch Hazel Salve has no equal for its potent relief of scalds and burns. It stops pain instantly, heals a burn quickly and leaves no scar. Battles & Eichinger."

The national convention of railroad yardmasters will meet in Denver, Col., in June.

Our patrons will find De Witt's Little Early Risers a safe and reliable remedy for constipation, dyspepsia and liver complaints. Battles & Eichinger.

While trying to escape from pursuing officers at Buckhannon, W. Va., Everett Miller had tried to swindle a farmer but who tumbled to their racket, jumped into the river and was drowned. His partner, C. D. Lewis, was arrested.

The Cleveland and Buffalo Transit Co. have let the contract for a new steamer for the Cleveland-Buffalo route. She will be the largest side, wheel and fastest boat on the great lakes, and will cost about \$375,000. She will have sleeping accommodations for 600 people.

A delegation of Kickapoo and Potawatomi Indians, who have been in Washington for some time claiming that their affairs have been mismanaged, called upon the secretary of the interior yesterday in regard to the matter, and incidentally requested an advance of money sufficient to defray their expenses home.

What is a Guarantee?
It is this. If you have a Cough or Cold, a tickling in the Throat, or if you are afflicted with any Chest, Throat or Lung Trouble, Whooping Cough, &c., and you use *Battles' Horsehold Syrup* as directed, giving it a fair trial, and no benefit is experienced, we authorize our advertised agent to refund your money on return of bottle. It never fails to give satisfaction. It promptly relieves Bronchitis. Sold at Battles & Eichinger's drug store.

He Has Moved.

A. J. Dunston, the best horse shoer on earth, has moved his shoeing shop to No. 136, S. Franklin street, one block south of Hill & Watt's livery stable, where he will be glad to see his old customers and as many new ones as may come. Andy always guarantees satisfaction. Remember the place—South Franklin, between Main and Wood streets. apr-dawt

WORKMEN are tearing down the old Tolono House at Tolono to make room for a modern new three-story hotel soon to be built in its place.

Busy people have no time, and sensible people have no inclination to use a slow remedy. One Minute Cough Cure acts promptly and gives permanent results. Battles & Eichinger.

TRIED IN THE TOWN HALL.
Boody Stirred Up Over a Disorderly Trial by Jury.

The usual quietude of the town of Boody was awakened Monday afternoon by a jury trial and an elaborate display of oratory in the town hall where "Squire W. I. Lundy presided to dispose of the case of The People vs. H. L. Swarthout, who had been arrested on a charge of disturbing the peace of Mrs. Charles Weatherford and her family, the complainant being Mr. Weatherford himself.
The alleged disturbance occurred last Wednesday, April 24, when it is charged that Mr. S. and Mrs. W. had a jawing match over the alley fence. During the day it was stated the Weatherford children had thrown rocks at the Swarthout dwelling, and when the head of the family came home he was promptly informed of what had occurred. There had been similar trouble before between the two families and Mr. S. took occasion at once to give expression to his feelings to Mrs. W. who was in her own yard alone at home, the children being absent. Mrs. Weatherford had a story to tell her husband when he came home, and the warrant sworn out for the arrest of Swarthout charged him with having disturbed the peace and quiet of the Weatherford family. It was shown in evidence that only Mrs. W. was disturbed, because there was no one else on the place at the time, as the children were away, and further it was demonstrated that she was taking care of herself in her colloquy with Swarthout. There were no blows struck, nor rocks thrown—only talk and talk, which was heard by many neighbors, who were witnesses at the trial. The evidence was heard by a jury, made up of farmers who were brought in five miles distant. They did not know either of the parties, and they were promptly accepted without the usual searching questions as to their qualifications to serve as jurors.
State's Attorney Mills appeared for the People, and Attorney J. M. Gray for the defendant. The hall was crowded all afternoon and so intense was the interest in the trial that many ladies were present. All of the chairs were occupied, the men sitting on one side of the room, the ladies on the other side.
There were eight witnesses on a side. The arguments of the attorneys were eloquent and exhaustive. Mr. Mills read the law and made a strong speech embellished with many pat stories and illustrations. Mr. Gray made the point that no one on the evidence submitted, except Mrs. W. herself was disturbed, and she in person was engaged in the controversy. He claimed that there had really been no disturbance of the family because all the members were away except the lady of the house. Had any of the neighbors made the complaint, charging that they had been disturbed, then the charge might stand, but he couldn't see how under the form of the complaint and the law Mr. S. could be justly convicted.
The jury retired, but did not agree at once, and the attorneys drove home. This morning a card was received stating that the jury had agreed upon a verdict and had found Mr. Swarthout not guilty.
Now the Boody people can discuss the outcome of the trial and the uncertainties of a jury's verdict.

Gifts to Fool the Public.
The condemning of alum as an unwholesome ingredient in baking powders by the government authorities as well as by physicians generally, has not deterred manufacturers of such powders from foisting them on an unsuspecting public. Following is a partial list of the alum powders found in the stores:
"Calumet," "Chicago Yeast," "Kenton," "Grant's Bon Bon," "Hotel," "Taylor's One Spoon," "Climax," "Snow Puff," "Snow Ball," "Giant," "Milk," "Crown," "Unrivalled," "Silver Star," "Davis' O. K.," "Forest City," "Monarch," "K. C.," "Loyal," "Manhattan," "Crystal," "Hatchet," "Home," "Echo," "Perfection," "Rocket," "Town Talk," "Vienna," "White Rose," etc.
It is safe to reject all brands sold with a prize. All powders sold at 25 cents or less a pound are sure to be made of alum. Dr. Wiley, the government chemist, in his official examination of baking powders at the World's Fair, threw out all "alum powders," classing them as unwholesome.

THE BRAVE CHIPPEWAS.
Red Men From Springfield Reorganize the Decatur Tribe.

Last evening at the seventh run in the wigwam hall over Riggins, Shirey & Co.'s commission house, North Main street, Chippewa Tribe, No. 35, Ancient Order of Red Men, was reorganized. All the young bucks and old braves of the old tribe except a few who have been scalped or gone to the happy hunting grounds in the last year and a half, rallied to the whoop of Deputy Grand State Sachem B. L. Stewart of Danville, who hails from Paughnaughnaughsinque Tribe No. 73. The tribes present worked in all four degrees of the order, and most of them can raise a scalp and smoke a pipe in any one of the four languages of the degrees. The new officers of Chippewa Tribe are: Prophet, F. C. Betzer; Sachem, Ed. B. Gates; Senior Sagamore, Elkin Chandler; Junior Sagamore, W. T. Peake; chief of records, O. E. Smith; assistant chief of records, W. S. Garver; keeper of wampum, W. F. Colladay; trustees for the middle term, C. W. Gambrille; for the long term, G. S. Nitsche; appointive officers, first sanrap, William Moore; second sanrap, John Lloyd; guard of wigwam, Theodore Hess; guard of forest, Earle Waggy; first brave, Bert Moore; second brave, H. Waldron; third brave, Earle Davidson; fourth brave, G. J. Nitsche; first warrior, W. S. Garver; second warrior, third warrior, J. W. Wilkins; fourth warrior, Samuel Morthland. The tribe was put on its feet in good shape. The braves from Pawnee tribe No. 66 of Springfield, who were present, consisted of Frank Ernie, Edward Sherwood, R. Lathrop, Charles Fetzer, Charles Biech, George Kunz, R. N. Shaw, J. M. Sutton, Charles Baer, Frank Blakeley, George Jackson, Charles Ambos and George Keesberger.
A positive guaranty against ill luck in the kitchen is Dr. Price's Baking Powder. It always acts perfectly.

Live Stock News.
A dealer in Chenoa shipped 12,000 dozen of eggs to Chicago one day of last week.
Last week's receipts of live stock at Chicago were 117,000 hogs, 64,000 sheep, 33,000 cattle.
J. P. Gillett, of Elkhart, had on the Chicago market recently fifteen 1417-pound steers which sold at \$6.20.
David Daniels, a farmer and stock raiser living east of Heyworth, has a remarkably prolific breed of sheep, eleven pairs of twin lambs in one month helping to increase his flock at a wonderful rate.
Receipts of live stock at Chicago for the past week, compared with the week before, show a decrease of 1000 cattle; a gain of 12,000 hogs and 6000 sheep. Compared with a year ago there was a decrease of 19,000 cattle, a gain of 12,000 hogs and 13,000 sheep, while compared with 1893 there was a decrease of 29,000 cattle, 20,000 hogs and 4000 sheep.
Since prices of beef cattle have declined to a point about 50 cents below the high time, the demand for choice cows and heifers has fallen off considerably. For a long spell buyers used this class of stock in the place of light steers because they could get a better grade for less money than would serve their purposes. Now they are able to get light steers at a more reasonable figure, and the result is shown in the sharp decline in the good to choice cow stuff. Shippers lately have been more or less disappointed because they did not take this fact into consideration.

Something For Nothing.
I am so interested in having the shoes that are bought of me wear well that I have gone to the expense of putting in a chair and an experienced operator to clean the shoes of all who want to avail themselves of this privilege. It is a department for all, customers or not customers.
A great many shoes would wear much longer if the proper blacking or dressing was used in "shining them up." Some of the most popular dressings contain large quantities of acid, and are positively injurious to any leather. It is that your shoes may wear longer, that they may be harmlessly polished, that I have made this departure. Drop in our New Shoe Store any day and you will find a polite attendant who has at hand every possible convenience and all the best dressings for polishing shoes. David B. Folger, old cobbler in the winnow April 25-d1f

List of Patents.
Granted to Illinois inventors this week. Reported by C. A. Snow & Co., solicitors of American and foreign patents, opposite U. S. Patent office, Washington, D. C.:
W. I. Bunker, LaGrange, bicycle saddle; J. H. Christopher, Morrisville, gate; S. L. Conde, Rockford, duplicating apparatus; Maurice Kane, Austin, Ill., E. M. D. Ladenberger, Joliet, dress collar clasp and support; J. F. Falmer, Riverside, tool for repairing pneumatic tires; H. Petefish, Arcadia, corn-planter attachment; C. I. Thompson, Peoria, composition for coating cores; W. H. Traphagen, Rockford, cultivator.
Card of Thanks.
The friends whose sympathy was manifested towards us in so many ways during our recent bereavement have our sincere thanks.
GEO. A. HENDERSON AND FAMILY.

NAVAL ACTIVITY.

Several American War Ships Ordered to Nicaragua.

IN ANTICIPATION OF A REVOLUTION.

For the Protection of Americans and Their Interests—No Connection with the Occupation of Corinto by the British.

WASHINGTON, April 30.—After several conferences yesterday, Secretary Gresham and Secretary Herbert of the navy, sent dispatches to the commanders of the United States gunboats Alert and the Atlanta, directing them to proceed without delay to San Juan del Sur and Greytown, Nicaragua, respectively.

The Alert is a Panamanian, and it will take her about a day and a half to reach San Juan del Sur, which is the cable station nearest Corinto, situated about 100 miles below that port. The Atlanta is at Key West, and can make the distance of 750 miles from that place to Greytown in two and a half days.

When Secretary Herbert was asked the significance of these orders, he answered promptly as follows:

"The newspapers say that a revolution is probable in Nicaragua. They state that the people are very much dissatisfied with the course of the government, and are likely to attempt to overthrow it. In order to protect the interests of American citizens, their lives and property, and following the policy always pursued in such contingencies, I have ordered the Alert to San Juan del Sur, and the Atlanta to Greytown. In addition to these vessels the Montgomery, now at Mobile, will sail on May 7 for Greytown, conveying the Nicaraguan canal commission to that place. The Monterey, which has sailed for Panama, will remain at Panama for the present. With two United States ships on one side of Nicaragua and one ship on the other side, it is plain that American interests will be well protected if the rumored revolution should take place. But I wish it distinctly understood that these vessels are sent to Nicaragua for the purpose of caring for citizens of the United States and their interests and not on any business connected with the situation at Corinto."

While the policy of this government in the trouble at Corinto is well understood, the first authoritative statement on the subject was not made until yesterday. A cabinet officer said last evening that the United States could not interfere between Great Britain and Nicaragua in the matter of difference, because Nicaragua was a sovereign state, recognized as such by Great Britain and the United States, and must hold herself responsible to Great Britain for offense committed against British subjects.

"The United States government," he said, "does not undertake to extend a protectorate over Central America and South America to such an extent that a sovereign state of one or the other of these countries may insult another sovereign nation with the expectation that this government will protect it from forcible resentment by the nation insulted. Such a principle has never been recognized by the United States, and if we attempted to assert it, we could secure the enmity of every nation having dealings with Central and South America."

"It is understood that the situation at Corinto has been relieved of much of its tension by an intimation cabled by Ambassador Bayard, that in case Nicaragua would guarantee payment of the indemnity asked within fifteen days, Great Britain would accede to a request for such an extension of time."

Mr. Warner Miller, president of the Nicaraguan Canal Co., had an interview yesterday with Secretary Gresham and Secretary Herbert.

"My business with the secretary of state and the secretary of the navy," he said afterward to a United Press reporter, "was for the purpose of informing them of the physical configuration of the country on the proposed canal route, in order that the canal commission may be assisted in facilitating its work."

RETURN OF THE OLYMPIA.

She Will Return and Proceed to Honolulu to Relieve the Philadelphia.

SAN FRANCISCO, April 30.—The new cruiser Olympia, which has been on a practice spin as far south as San Domingo, returned to San Francisco Sunday, thereby setting at rest the entirely unfounded rumor that she was on the way to Corinto. She was promptly ordered by the department to proceed to the Mare Island navy yard, where she will be made ready to relieve the Philadelphia at Honolulu. She will be delayed at least two weeks for repairs and slight alterations to her battery, necessitated by small defects developed during her cruise.

Not Accident on Board the Olympia.

WASHINGTON, April 30.—Capt. Reed of the Olympia telegraphed the navy department yesterday afternoon that when that vessel was coming to anchor at San Francisco Sunday afternoon, the port chain parted at the fifteen-fathom shackles, which, in running out, struck Ensign George Mattson just above the ankle, breaking his leg and necessitating amputation. Mr. Mattson is one of the popular young officers of the navy and had just been married.

TELEGRAPHIC NOTES.

—The British are organizing a provisional government at Corinto.

—Hon. Dennis Barry, judge of the circuit court in Montreal, Can., died, Sunday evening, after a two days' illness.

—Rev. F. J. Horn, of Cincinnati, has accepted the call of the Dane-street Congregational church in Beverly, Mass.

—Four well-developed cases of small-pox were discovered in Claremont, N. H., Sunday, three of them being in one family.

—The price of flour in London advanced yesterday 3 shillings per sack, the extreme quotation being 27 shillings per quarter.

—The marriage of the dowager duchess of Marlborough to Lord William Beresford took place in St. George's church, Hanover square, London, at 1 o'clock to-day.

—Secretary Holke Smith has approved a list of land containing 21,038 acres granted to the Northern Pacific Railroad Co. in the Bismarck land district, North Dakota.

—The parliamentary elections in Greece have resulted in a complete victory for the Theodore Delanyanis party, they having secured 115 seats against 12 for the party of Tricoupis, the head of the last ministry.

—A dispatch from Yokohama says that the mikado is suffering from the effects of a chill, and that the fetes which were to have been held in Kyoto, to celebrate the victories of Japan, have been postponed in consequence.

—A dispatch from Simla, British India, says advices from the front state that Sher Afzai is imprisoned at Camp Low, and Umra Khan is reported to have been captured by Afghans and handed over to the British authorities.

—The marriage of the duke of Aosta to Princess Helene of Orleans has been indefinitely postponed, owing to an accident to the duke's brother, the prospective bride and head of the house of Orleans. The duke of Aosta will start to-morrow for Italy.

—The marriage of ex-Mayor Hugh J. Grant, of New York, and Miss Julia Murphy, eldest daughter of the junior United States senator from New York state, will be privately celebrated to-day at the home of the bride in Washington.

—In a storm yesterday several small dwellings in Druid Hill, an Omaha (Neb.) suburb, were blown down. It is rumored that two persons were badly hurt. The storm also destroyed two houses, unroofed several others and injured three persons in Bedford Place, another suburb.

—From present indications an agreement will probably soon be reached between Nicaragua and England which will be mutually satisfactory to both countries and result in the withdrawal of the British forces from Corinto and in bringing the present complications to a close.

—The grand jury which for three weeks has been investigating the dynamite explosion horror at Butte, Mont., in which fifty-eight men lost their lives, reports that it has been unable to fix the responsibility. Civil suits for damages aggregating \$250,000 have been brought against the two hardware companies.

—Great Britain is said to be preparing to take aggressive measures for the collection of the interest on Honduras bonds negotiated in England nearly twenty years ago. The interest and arrearages amount to between \$200,000 and \$300,000, and the proposition is to collect the revenues of Honduras ports until the claim is satisfied.

AN IMPORTANT RULING.

Involving a Question of the Applicability of Railroad Rates.

WASHINGTON, April 30.—A case involving an important question of the applicability of railroad rates was decided by the supreme court of the United States yesterday in an opinion rendered by Mr. Justice Brewer. It came direct to the supreme court on a writ of error from the court of Milan county, Tex., and in itself was not important, but settling the principle at stake made it notable.

It was the case of the Gulf, Colorado & Santa Fe Railroad Co. vs. Hefley & Lewis.

Disposing of the case, Justice Brewer said that a statute of Texas requiring railroad companies to deliver freight at the price named in the bill of lading under penalty of damages prescribed in the law, was inapplicable to interstate shipments since the passage of the interstate commerce law, which forbids railroad companies to charge, collect or receive for freight on such shipments, any other, either greater or less sum, than that named in the tariffs, which they are required to publish. The state law can apply only to shipments wholly within the state. The judgment of the county court was reversed and the case remanded for further proceedings, in conformity to the opinion.

A Fatal Row in a Baguio.

LYNCHBURG, Va., April 30.—In Danville Sunday night Louis Shaner, of this city, shot and killed James T. Wallace. The tragedy occurred at a baguio. The men quarreled about some money. Wallace, cursed and Shaner was raising a chair to throw at him, when the latter fired, the ball penetrating Wallace's head, causing instant death. Shaner escaped and is still at large.

Not Guilty—A Big Water Contract.

JERSEY CITY, N. J., April 30.—The jury in the case of ex-Street and Water Commissioners Dugan, Sommers, Yoe, Madden and Cook, who were charged with conspiring to defraud the city, yesterday afternoon brought in a verdict of not guilty.

The street and water board yesterday awarded the Jersey City Water Co. the contract to supply the city with water for twenty-five years. The total amount involved is \$7,000,000.

LOOKS MIGHTY QUEER

Castings Rejected by the Navy Department

AND CRIMINAL PROCEEDINGS BEGUN

On a Charge of Attempting to Defraud the Government, Followed by the Acceptance of the Condemned Castings.

WASHINGTON, April 30.—The navy department has accepted the four steel castings for the battleships made by the Atha & Illingworth Co., of Newark, N. J., which were rejected with somewhat sensational results last fall, closely followed by the arrest of and institution of criminal proceedings against some of the officials of the company on the charge of attempting to defraud the government.

As far as known, the department of justice has taken no step to quash the charges, but the navy department having accepted the material on which the proceedings were based, it is probable the case will be abandoned.

The chief of naval ordnance, in explaining the matter this morning, said the department being in urgent need of the castings, and their defects having been shown to be superficial, had accepted them.

These castings are the piston-heads used to elevate the big guns in the turrets of the battleships now so near completion.

The big castings from the Atha & Illingworth Co., when examined carefully developed the fact that plugs had been put into blow holes and the entire surface skillfully rusted over to prevent detection. Ordnance officers declared this to be a palpable intent to defraud, and Secretary Herbert determined to make an example of the presumably guilty parties and promptly sent forward the affidavits of the inspectors to Attorney-General Olney, who proceeded against the officers of the company at once. The department returned the castings to the company rejecting them, and the company begged for permission to make new pieces.

DURANT ARRAIGNED.

Trial to Begin on the Close of the Coroner's Inquest.

SAN FRANCISCO, April 30.—Durant was arraigned yesterday morning on the charge of murdering Blanche Lamont. He listened to the reading of the complaint in the same stolid manner which has characterized him ever since his arrest. The preliminary hearing of the prisoner was set for this morning, with the understanding that a continuance would be granted until after the conclusion of the coroner's inquest.

Coroner Hawkins has fixed the time for beginning the inquest in the case of Blanche Lamont as to-morrow morning. It will probably take several sessions to get in all the testimony.

RUN DOWN BY A WAR SHIP.

A Russian Mail Steamer Sunk—Five Persons Lost.

VIENNA, April 30.—A dispatch from Sebastopol says the Russian war ship Penderiklia, of the Black Sea squadron, collided at 3 o'clock yesterday morning with the Russian mail steamer Kotzebue, near Tallinn. Most of the passengers and crew were taken aboard the Penderiklia from the Kotzebue's decks; others were picked up after she went down. Five men sank with the ship and were lost. The war ship was damaged below the water line. She is an iron vessel nearly twenty years old.

OUR COPYRIGHT LAW

Affords but Little Protection to American Authors.

WASHINGTON, April 30.—Solicitor-General Conrad of the department of justice has decided that the copyright law does not prevent American books, copyrighted in this country, from being published in Canada and sold in this country. The case came up on a cheap edition of "Ben Hur" being printed in Canada and sold in this country. It was sought to restrain the sale, but Solicitor General, of the treasury department, held that it was not a violation of the law, and Solicitor-General Conrad now sustains him.

A WIDE-AWAKE SHERIFF.

He Can Always Find the Victim After the Lynching.

GREENVILLE, Ala., April 30.—The sixth negro was lynched in Butler county Sunday for the murder of young Watts Murphy. Sheriff Bargainer found his body hanging to a tree in the neighborhood where the other five were lynched a week ago Sunday. He appeared to have been dead for at least a day. This last victim is believed to have been the one who struck the blow that killed Murphy. His name is not known.

Cuban Revolutionists Again Defeated. (From the Staff Correspondent of the United Press.)

GUANTANAMO, April 30.—It is reported that a column of government troops under Col. Copello made an attack yesterday upon a band of insurgents 700 strong under command of the rebel leader Maceo, killing nine and wounding a large number of the revolutionists. The government forces had two killed and five wounded. [Signed.] J. FRANK CLARKE.

Broke the Deer's Leg.

LONDON, April 30.—The accident to the due d'Orleans, in consequence of the marriage of his sister, Princess Helene, to the duke of Aosta has been indefinitely postponed, occurred on Friday last. The due d'Orleans was hunting at Seville, when he was thrown from his horse, sustaining a fracture of the leg.

IN THE BRITISH COMMONS.

Interesting Statements with Reference to Nicaragua and Hawaii.

LONDON, April 30.—Sir Edward Gray, parliamentary secretary for foreign affairs, announced in the house of commons yesterday that the government had received dispatches from Rear Admiral Stephenson at Corinto, conveying information that that port had been occupied by the British on April 27 and that no opposition to its occupation had been made by the Nicaraguans. The dispatches, he said, further stated upon the landing of the British force of sailors and marines the Nicaraguan authorities withdrew from the town. To this announcement Sir Edward added the statement that care had been taken that British trade with Nicaragua should not be placed at the slightest disadvantage.

Sir Edward Gray, replying to a question as to the terms of British recognition of the republic of Hawaii, said that official recognition of the republic was given by Great Britain upon the stability of the form of government being ascertained. He knew of no precedent, he said, for the withdrawal of such recognition after it had been granted on adequate knowledge of antecedent facts.

Referring to the situation in Nicaragua, Mr. Wm. P. Byles, liberal, asked if the dispute could not be settled by arbitration.

Sir Edward Gray requested Mr. Byles to give notice of his intention to introduce a motion in accordance with his question.

GREAT BRITAIN'S CLAIM.

The Cause of the Trouble Between Honduras and England.

WASHINGTON, April 30.—The present trouble between Honduras and Great Britain had its origin in 1868 when a British company was granted a concession to construct a railroad from Puerto Cortes to the Bay of Fonseca, a distance of 240 miles. The work was begun and sixty miles of the road completed. Then \$300,000 worth of bonds were sold and operations abandoned. Since that time the government of Honduras has repeatedly attempted to reach an arrangement with the bondholders, so as to complete the road. In the meantime, the enormous debt has been a bar to the country's advancement, and the government has been unable to even pay the interest. The sixty miles of road are now operated by W. S. Valentine, of New York, who hopes to complete the road to the Pacific when the difficulties shall have been adjusted.

A large portion of the whole commerce of Honduras is with the United States, the imports from this country for 1891 amounting to \$1,159,591, and in 1893 to \$684,912. The exports to Honduras were in 1891 \$649,921, and in 1893 \$471,695.

THE FARMERSBURG SUICIDE

Identified as a Rich and Influential Farmer from Kentucky.

TERRE HAUTE, Ind., April 30.—C. E. Moore, of Versailles, Ky., yesterday identified the body of the man found hanging to a tree at Farmersburg as that of Warren Eaves, who mysteriously left his home near Versailles last Monday.

Eaves was a man of wealth and influence in Woodford county, Ky. For some time he had been acting strangely. When he arrived in Sullivan last Wednesday, as is now supposed, to visit his brother, he had \$150 in gold, a watch and a valuable ring. All these were missing when the body was found. He was known to have been drinking, and the theory is that he was robbed while drunk, and, discovering the fact when he became sober, committed suicide. There is yet a strong belief, however, that he was dead when strung up to the tree, as his condition showed little or no sign of strangulation. A detective from here is at work on the case.

"ENGLISH AS SHE IS SPOKE."

The Seceding German Pythians Enjoined from Printing and Distributing Rituals.

EVANSVILLE, Ind., April 30.—Judge Foster in the superior court yesterday afternoon made permanent the temporary restraining order issued against Henry Rosenthal et al., of the Improved Order of Knights of Pythias of the United States. The defendants are enjoined from printing and distributing rituals of the new order. The complaint praying injunction was made by St. George lodge, Knights of Pythias of this city, in behalf of Pythians of the United States, claiming that the new rituals were copies of the original Knight of Pythias ritual. The court finds the new ritual almost a verbatim copy of the old. The Improved Order of Pythians embraces the German Pythians who seceded on account of the "all-English" rule adopted at the last Pythian convocation.

REPORTS OF INDIAN TROUBLE

In Northern North Dakota Not Credited at the Indian Bureau.

WASHINGTON, April 30.—Officials of the Indian bureau place no credence in the dispatch dated Winnipeg, Man., to the effect that 1,500 Mounted Turtle Chippewa Indians were about to go on the war path. There was some minor trouble among them recently on account of the Indians cutting firewood, which they have a right to do, for use, and a United States deputy marshal endeavored to prevent it. The Indians resented this interference and requested the aid of the Indian bureau. Indian Agent Hall was sent to investigate the matter, but has not yet been heard from, which fact leads the officials to believe that nothing serious has occurred.

The Jury Failed to Agree.

LYNCHBURG, Va., April 30.—The jury in the case of R. Pannill, charged with complicity with the ex-slaveholder of the First national bank of Lynchburg in the embezzlement of \$33,000, failed to agree, and were discharged yesterday, standing eight to four for acquittal. Pannill's bail was reduced to \$5,000.

YESTERDAY Attorneys I. R. Mills and J. M. Gray were at Boody to try a state case.

Everything in Readiness.

All arrangements have been completed for the grand oriental trip to-night to Mt. Pulaski via the P., D. & E. railway. Over 200 princes have purchased tickets and there will be a big crowd leaving to-night. The train will leave the Union depot at 6:30 p. m. and the parade will start from the hall at 6 o'clock sharp. In order to accommodate those who desire to take part in the parade, Landlord Taggart will serve supper from 5 to 6:30 o'clock.

Find a Shortage of Over \$10,000. SHELBYVILLE, Ill., April 29.—The committee appointed to investigate the county records has made its report to the board. It claims to have discovered inaccuracies in the reports of the officers and ex-officers as follows: A. M. Chadwick, ex-treasurer, \$4,777; A. F. Allen, ex-county clerk, \$5,078; D. L. Colbert (decd), ex-sheriff, \$684; T. H. Graham, circuit clerk, \$296. It is believed most of these will be settled out of court.

Charity Board Meeting.

The regular monthly meeting of the Decatur Charity Board will be held Wednesday, May 1st at the Christian Tabernacle. A full meeting of the members is desired by the Pres., who will call the meeting to order promptly at 2:30 o'clock. Any ladies, not members of the board, who are interested in systematic charity, will be welcomed by the board. Mrs. A. W. Conklin, Pres., Mrs. J. E. King, Sec.

Arthur W. Marsh.

WANSAW, Ill., April 29.—Arthur W. Marsh, oldest son of Congressman B. F. Marsh, died this morning of paralysis, superinduced by muscular rheumatism. He was in his 30th year and was a popular young man. He will be buried Wednesday afternoon with Masonic honors.

A Candidate.

In May the Illinois Division, Sons of Veterans, will meet with Illinois Department, Grand Army of the Republic, at Bloomington. The candidate for colonel of the division will be Capt. Joseph Grimes, of the Springfield Camp. His friends say he will be a winner.

No Meeting.

Owing to the excursion of Lucullus Council, No. 1. O. M. A. to Mt. Pulaski to-night, there will be no meeting of that Council to-morrow night.

A Good Bath.

Decatur and vicinity had a generous and refreshing rain this afternoon.

THE WABASH AT FAULT

Such is the Charge of a Leading Illinois Central Official.

No Show to Get a Union Depot Until the Wabash Will Join in the Improvement Some Way.

A REPUBLICAN reporter was called to the old and musty union depot this afternoon to meet an official of the Illinois Central Railroad company, George F. Jenkins, the master car builder for the entire Central system. Colonel Taggart was present during part of the interview which throughout was sharp and to the point as to the real needs of Decatur in the way of, a new union station on the right side of the track—a depot that will be a credit to our city and not tend to drive strangers away.

It was quickly seen that Mr. Jenkins had a grievance and he made his kick in a diplomatic, gentlemanly manner. The reporter was a good listener and when Mr. Jenkins got through he had something to say in the name of the people of our long-suffering town.

The essence of Mr. Jenkins' complaint was: "The Decatur papers have done the Illinois Central great injustice in the past. You have made statements that are not borne out by the facts. You have represented that the Central did not want to build a depot, and that it never would. You have made the people believe that stuff. It has hurt us in many ways. Now I will state, as a fact, and it is a matter of record, that the Central is not only ready but anxious to build a new station to take the place of this old structure, which was built in 1858. We have tried again and again to get the Wabash to join us in some satisfactory arrangement, and we have submitted propositions to them, all to no purpose. They do not even answer any of the communications sent in, and consequently the proposed improvements which we have planned and desire to make, cannot be accomplished. Plans for a creditable union station are now drawn and ready for use. They are in the general office in Chicago. But the Wabash is contrary, and it treats us unfairly by representing to the people of Decatur that it is ready to join with the Central, but the Central will not do anything. The Wabash refuses to do anything. It will not consent to bear part of the expense, nor will it make any move to pay more rent for better accommodation in a new building. These are the actual facts of the situation, and we think the true facts should be made known by the local papers. Let the Wabash manifest a disposition to join with us and the Illinois Central will begin building a new depot in less than a month, and when it goes up it will be one that will win the praise and admiration of the people. Our new yards north of the city will take the freight switching away from the crossing, and the switching for the freight house will be done at the south end or from North street. The Central means business. Let the Wabash come in for a share of the expense or sign papers to pay more rent for depot privileges and the new union depot will be built."

The reporter suggested that the Decatur papers but reflected in a small part the feeling of impatience and disgust the people entertained toward the Central for its failure to meet the wants of the people and the demands of the commercial importance of Decatur, the central city of Illinois. But a small fraction of the kicks had been recorded. Mr. Jenkins was also informed that repeated efforts in an organized way had been made by Decatur business men to get the Central to promise a new depot and get a date when they would build one, but the efforts had borne no fruit, only whetted the impatience of the masses and instilled into them the belief that there was no early possibility of a new depot. And so it has gone on year after year, the people enduring the present condition of things because they cannot help themselves. The people do not care how the depot is built? What they want most is to see a new depot, and the sooner the better.

Mr. Jenkins did not say that he was sent here to make a kick, but he did remark that he was looking around to see what improvements were needed at the old building to make it answer for a year or two longer, or until a satisfactory arrangement can be made with the Wabash.

Now what do you think about? Is there any hope at all?

Popular Vote in Marshall on the License Question Causes Complications.

MARSHALL, Ill., April 29.—There is a curious state of affairs in Marshall just now on the license question. At the municipal election April 16 the question was voted on by permission by the City Council, all the candidates agreeing to abide faithfully by the decision of the people, no matter what their own preference, they signing their names to a written agreement to that effect. Anti-license carried by 21 votes and immediately the saloon party began scheming desperately to get around the decision. Though sufficient men favorable to the license system were elected to give that party a majority of the council they decided they would hold to their pledges. So the old council which, counting as the agent of a brewery, stands 5 to 2 for license, held a special session and granted another vote on the license question, to be held to-morrow. The temperance people have determined to a man not to vote, declaring that if the vote of April 16 on this question is to be disregarded that of to-morrow would be also if it should go against the liquor men. Many advocates of license will also refuse to vote, they declaring they were beaten fairly once and do not now propose to play the baby act. The temperance people propose to take down the names of all who vote to-morrow and hold them up to reproach. Feeling runs very high and seriously trouble is looked for by many.

The Way of It.

The first A. H. Mills, assistant state attorney, heard of the Bell-Craycroft cutting affray, was a call Sunday afternoon by telephone to come to the court house office, to meet a man who wanted to swear out a state warrant for a party who had cut a man. Mr. Mills came down town. William Craycroft, father of Frank who had been cut, had been informed previously of what had occurred, and an effort had been made to reach I. K. Mills, but he was not at home. Mr. Craycroft had stated that he would swear out the warrant for Bell's arrest. Mr. Craycroft was then at the home of F. L. Wood in Riverside Place. An attempt was made to get him to come up town but he could not be reached by telephone. Then Mr. Mills and L. M. Davidson went to the Wood residence. Mr. Mills taking the blank and the statutes with him. But Mr. C. refused to make the accusation against Samuel Bell who had stabbed Frank. He said he didn't know anything about the assault. Mr. Mills came back up town, and went home only to be called back sometime later in the evening, to draw up a warrant for Edward Stickle to sign, that gentleman having stated that he would make the accusation. And then Sheriff Nicholson went down to Wheatland and brought Bell to the city. It was thought to-day that Mr. Craycroft was in a very critical condition.

A Pardon For Hilliard.

Governor Altgeld has pardoned Louis A. Hilliard, who was convicted in November, 1893, of embezzling a large sum of money from the Chicago Tribune, for which he was cashier, and sentenced to the penitentiary for four years. The pardon was not accompanied by the usual statement assigning the reasons for the exercise of executive clemency. Hilliard was employed as cashier of the Tribune until August, 1893, when he absconded, leaving a shortage of \$8,000. He was captured two months later in Europe, whither he fled after defalcation, through the efforts of W. A. Pinkerton of the Pinkerton National detective agency. The absconder was at once brought back to Chicago, where he was tried and convicted in November the same year, and sentenced to four years.

THE "Gurney" uses less ice than any other refrigerator made. Sold only by us. Bachman Bros. & Martin Co.

Tailors Elect Officers.

Tailors' Union, No. 66, elected the following officers at its meeting last night: President—J. O. Anderson. Vice-President—M. J. Gaitland. Recording Secretary—Henry Hennings. Financial Secretary—John Murphy. Treasurer—John Shirley.

The union decided to attend in a body the meeting of the various trades unions to be held May 12. The object of the meeting is purely fraternal and social. A club may be formed.

At home and abroad Dr. Price's Baking Powder stands unrivalled.

It Looks Like a Fight.

Joe Vendrigman, manager of the Florida Athletic Club, has put up \$5,000 forfeit money to guarantee that club's ability to handle the fight between Corbett and Fitzsimmons. The time and place will be named on July 1. It now remains for Corbett and Fitzsimmons to put up \$5,000 each as a guarantee to the Florida club that they will fight under its auspices.

Rich strikes of gold are reported from New Mexico.
